Course Number: IS322
Course Title: Mobile Application: Design
Section: 002
Semester: Spring 2016
Date & Time: M & W: 1:00PM – 2:25PM
Location: GITC 2315B
Credits: 3
Contact Hours: 3 Hours Face-to-Face

Instructor Information:
Name: Keith Williams
Office: 4107 GITC
Phone Number: 551-580-3989
Email (preferred): kwilliam@njit.edu

Office Hours:
Monday / WED: 3:30PM – 5:30PM
In office or By Appointment

Course Materials

Catalog Description
Prerequisites: CS 113 or CS 115 or other computing GUR. This course is a practical introduction to building applications for mobile devices. The course combines hands on design and development experience, with a conceptual overview and discussion of design and practical development issues. Taken into account will be constraints and requirements of devices with small screen sizes, limited battery power, limited computational power, etc. Tools used for building an application in the context of a specific device such as iPhone or an Android based device will be discussed. Students build a mobile application to demonstrate their understanding of mobile web constraints and tools.

Prerequisites: CS 113 or CS 115 or other computing GUR

Learning Outcomes
1. Students will be able to create a mobile application using advanced HTML5, CSS3, and JavaScript
2. Students will be able to create a visual design for a mobile application that demonstrates responsive design
3. Students will be able to create a mobile application using a structured process that consists of defining requirements, creating a mockup, and coding the application.
4. Students will be able to compare and contrast native, hybrid, web, and responsive development technologies.
5. Students will be able to design an n-tier mobile application

Grading Category Weights
Grading Scale
2 Projects: 30%
A: 90 - 100
B+: 88-89
B: 80 - 87
C+: 78-79

3 Exams: 45%
D+: 68 - 69
D: 60 - 67
C: 70 - 77

Homework: 15%
F: 0 - 59

Participation: 10%

Incompletes are only given for extenuating and documented medical, or personal issues.

Project Rubric
You are expected to complete milestones for your project. Each project is expected to have a project template and a mockup of the ui and/or flow chart for the application.

3 – Above Average Performance – Thoughtful Visual Design and/or Technically Advanced
2 – Average Performance – Demonstrates all major project requirements
1 – Below Average Performance – Submitted with obvious technical and/or visual deficiencies
Homework Rubric
1 - Completed on time
0 - Not Completed on Time

Late Project and Homework Policy
All projects and homework must be turned in on time, or you will lose one point for each week that project or homework is late. **Note: A homework that is 1 week late loses all points.**

Attendance
Attendance will be taken for each class meeting. You are permitted one unexcused absence for the class; however, each subsequent absence will result in a 3 percent reduction in your final grade. Attendance is worth 10% of your final grade.

Academic Integrity Policy
My expectation is that each person will complete original work for this course and will not copy from fellow students or tutorials online. It is OK to refer to tutorials online; however, you will be considered in violation of the NJIT honor code by submitting work found online. Any violations of the honor code will be referred to the Dean of Students for investigation and possible disciplinary action.
For more information about the NJIT honor code, you should refer to this document:

http://www.njit.edu/academics/pdf/academic-integrity-code.pdf
# Course Calendar – Subject to change – Notice will be posted in Moodle for any changes
