

Course Number: IS117

Course Title: Introduction to Website Development

Section: 101

Semester: Fall 2016

Date & Time: W: 6:00PM – 9:00PM

Location: GITC 2315

Credits: 3

Contact Hours: 3 Hours Face-to-Face

Instructor Information:

Name: Keith Williams

Office: 5114 GITC

Phone Number: 551-580-3989

Email (preferred): kwilliam@njit.edu

Office Hours:

Tuesday: 4:30PM – 5:30PM

Wednesday: 4:30PM – 5:45PM

Thursday: 11:30 – 12:45PM

By Appointment

Course Materials

Hafner, Katie, and Matthew Lyon. *Where Wizards Stay up Late: The Origins of the Internet*. Estados Unidos: Simon & Schuster International, 2006. Print.

O'Kane, Mike. *A Web-based Introduction to Programming: Essential Algorithms, Syntax, and Control Structures Using PHP, HTML, and MySQL*. N.p.: n.p., n.d. Print.

Catalog Description

This course discusses the concepts and skills required to plan, design and build websites. It will be taught in a lab to ensure hands-on experience with each of these tasks. The course begins with an overview of web technologies. Students learn to plan websites, which includes determining the business and end-user requirements for the site. Design includes learning to develop "mockups" of how the site will look and how people will use it. The major tools for building websites will be industry standard HTML and XHTML to describe webpage content, and Cascading Style Sheets (CSS) for flexibly formatting the content. Using entire site, as well as "future-proofs" a website, allowing it to be viewed on every major web browser (such as Firefox or Chrome) and easily adapt to changes in future browser technology. The course features substantial hands-on projects comprising websites of several interlinked pages and images, enabling students to thoroughly learn the course's important concepts and skills.

Prerequisites: None

Learning Outcomes

- Students will be able to create a multi-page website using HTML and CSS
- Students will be able to create a website using a structured process that consists of defining requirements, creating a mockup, and coding the final website.
- Students will be able to select the most appropriate image file format for use online
- Students will be able to use Linux commands to manage files and folders on a web server
- Students will be able to use SFTP/FTP to upload and download files to a web server
- Students will be able to demonstrate website usability concepts by designing a navigation menu for a website.
- Students will be able to demonstrate information architecture principles by designing a website home page.
- Students will be able to define basic terminology used by web page analytics tools such as Google Analytics
- Students will be able to explain the process of how web pages are accessed and transmitted across the Internet

Grading

Grading Category Weights

Project: 30%

Quizzes and Homework: 20%

Exams: 30%

Final Exam: 10%

Participation: 10%

Grading Scale

A: 90 - 100

B+: 88-89

B: 80 - 87

C+: 78-79

C: 70 - 77

D+ 68 - 69

D: 60 - 67

F: 0 - 59

Incompletes are only given for extenuating and documented medical, or personal issues.

Grading Rubric

3 – Above Average Performance – Thoughtful Visual Design and/or Technically Advanced

2 – Average Performance – Demonstrates all major project requirements

1 – Below Average Performance – Submitted with obvious technical and/or visual deficiencies

Late Project Policy

All projects must be turned in on time, or you will lose one point for each week that project is late.

Attendance

Attendance will be taken for each class meeting. You are permitted one unexcused absence for the class; however, each subsequent absence will result in a 3 percent reduction in your final grade. Attendance is worth 10% of your final grade.

Academic Integrity Policy

My expectation is that each person will complete original work for this course and will not copy from fellow students or tutorials online. It is OK to refer to tutorials online; however, you will be considered in violation of the NJIT honor code by submitting work found online. Any violations of the honor code will be referred to the Dean of Students for investigation and

For more information about the NJIT honor code, you should refer to this document:
