

Computing Careers: Jobs Plentiful, Salaries Strong

Future CCS graduating classes have every reason to be optimistic about jobs!

Computer professionals are projected to be among the fastest growing occupations over the next decade. Job increases will be driven by very rapid growth in computer systems design and related services, which are projected to be one of the fastest growing industries in the U.S. economy. Source: U.S. Bureau of Labor Statistics

Nationally, May 2011 graduates of computing-related disciplines saw healthy starting salaries with computer science majors averaging \$63,017, according to National Association of Colleges and Employers.
